Dines: Send your loggings out no later than 7/17.

UK high freqs: On 6/11, R.101 was on 15019 kHz at 0911 UTC & R.Orion on 25915 Hz at 1649 UTC. With the high freqs active, these stns might be audible in North America. Info from Weekly Report, a UK zine. Pete Willsher (UK) sez Orion's on Sat's 1100-1300 & Suns 1000-1345 UTC. Maybe gd shot at it here.
From Radiotelex in W.Germany, IRRS has recently been using 9860 & R.East Coast Commercial 11515 kHz. I dunno if these are still open. Also, R.Europe (Italy) is on 7245 M/Sat/Sun from 0800-1200 & 27827 kHz T/W/Th/F 0800-1200. I dunno the power. Sigs haven't been gd in Europe, so maybe not worth ment. here, but I did anyway.

Stn Info: Another new 1 which plans to hit the air is Scree R. Shud have lotsa new wave mx & a YL DJ (novel combo, eh?). Can be reached via BF, PA add...RCCI can be reached via either BF or Hilo, HI adds. I noticed that while reading the new ACE..Rumor has it that Samurai R. was testing on 15200 over 6/24 wknd, but no rpt. SR still has no add..Alternative mx stn R.Marabu from Europe wants to relay a US FR stn in exchange for a RM pgm being played over here. Any takers? Add: Postfach 220 342, D-5600 Wuppertal 22, W.Germany...

Busts:(maybe I shud rephrase that so ya don't think I'ma pervert) WRFT was hit in 12/88. Yup, the info's old, but Curtis (stn owner) just called the other mite. Sed he was nailed 21 minutes into a show by the nice guys at the Dallas Field Office. He used a Yaesu FT-101E, but had to sell to cover the \$750 fine. Xmt output was measured at only 16.7 watts! The S.Erway add is going to fold in a week or so. If ya still wanna write to him, use BF, PA add...LV Alpha 66, the anti-Castro clandestine got nailed in Miami, FL recently. I dunno much 'bout the details, but it's been on a long time (early 80's). They plan to return. LVA 65 info via World of Radio & Grace, MA

Thanx for nice calls! to Curtis of WRFT; Don Spooner, MA; Eddie of VoStench, JB of WENJ, Kris Field, PA; Steve Sachs, IL. If I forgot anyone, I'm really sorry. Thanx also for all the nice letters & comments here (to nearly everyone in the club!). Thanx! It really makes it worthwhile!

Explanations to #5: I think everyone who hrd bdcsts from VoStench on 7/1 hrd both pgms. So when it sez "SAME" before a log, it means for both pgms..FR1 logs were a mess! If they keep on w/just relays of FR1 & the same pgm, I'm just gonna log the essential details & who hrd it. Sound OK?..I put 2 logs of "Pirate Song" by Mojo Nixon & Skid Roper bdcsts in the und section. It prob was VoStench, but the album is fairly common, so anyone could've done it..I hope Pifa #5 isn't too messed up—I had alot computer malfunctions this time. It REALLY tried my nerves!

Dlines: Send your loggings out no later than 7/31

UK High freqs: Radio Orion continues to be heard on 25995 from @ 1100-1300 UTC on SATrdays & Sundys. But the really big news is Wknd Mx R. (Scotland) being hrd over here on 15043 last Satrdy nite w/gd sigs. I didn't think to look there! Argh!

Stn info: I got a QSL from RFM—they're now using BF,PA add. It sez they use 80 w into a dipole. The pgms hrd over 7/2 wknd were tests "to determine equip. probs. which we have subsequently determined is in our modulation. Corrective action is in progress." v/s H.V. Short

Busts II: The FCC does it again: this time they nailed the legendary WHOT, the professional, high-powered FM stereo, NYC pirate. This one's been around since at least 1983 (maybe before). But their biggest stints with DXers were in 1986/7 when they regularly simulcast their marathon oldies/phone call pgms on 1630 and when they made the last bdcst in 1987 from RNI. Hank Hayes, Jim Nasium, & Pete Sake will definitely be missed up there! For any of you nostalgia-heads out there, ya can get a WHOT t-shirt for \$10, get old QSLs filled out, or buy airchecks from FM pgms (price?) from: Suite 915, 1671 E. 16th St., Brooklyn, NY 11229. When I txd to'em on the phone, they weren't willing to give out any details of the busts. All they wud say is that they presently have no plans of pirate bdcsting. Oh well...

Speaking of T-shirts, R. Clandestine shirts will soon be available with the old ship logo in black on a white shirt. They should get here soon: advance cost is \$7.50 to PiPa members only—if you order before 8/15 (PiPa Euromembers can pick'em up for \$8.50 US). After 8/15, the price will probably go to \$8 or \$8.50 to ACE & PiPa members & \$9 for anyone else. Make checks payable to Andrew Yoder, specify Medium, Large or X-Large sizes. Probably more T-shirts & fun things will be available via PiPa soon..I wanna come off w/PiPa shirts. I guess we'll see how this stuff does first..Oh yeah, send yer orders to me at BF,PA. Dozens of RC shirts shud be peddlin' into BF in abt 3 weeks (according to the printers).

FRI signed up for PiPa?! Here's a note they sent to me—abbreviations are mine: "FRI net is growing. Up to 4 stns soon in 4 diff states. Goal is 50. Alternating freqs & xmit sites. FCC is no prob. Most of our xmittees are legal competents who can handle any encounters w/the gov't. Condx of America is critical. Brain drain is at pt of no return. Major media completely control US. Some sort of undgrnd net is necessary & imperative if any are to survive the soon coming crash & attempted takeover by Bush et al (didn't he already win? AY) I urge you & any other pirates you may know to get my report on 'What to do when the FCC calls.' FCC is a piece of cake, if you know the basics of fed procedure & Sec 301." Unfrtnately, no one has seen this report to see how gd it is—for all I know the ol' Free Radio Handbook from Hilo,HI for \$2 is still the best bet.

Abt 7/19: Incredible, I got 5 stns in a row on a Tue nite! WEIRD! Sometime after 0330, PRNet, KRUD, & R.Garbanzo wele QSO/bdcsting. One stn wud go on w/a few songs & promos & say hi to everyone & the other stns. Then another wud come on & do the same thing. All-in-all, PRNet mustve made abt 20 separte several minute xmissions. It's alotta fun to hear, but if they keep it up, my PiPa work will be sheer torture!

If I missed anyone, I'm really sorry! Tnx also for the many grt letters!

Unid/WDOG jamming: I got alotta descriptions on this. What Apparently happened (in my eyes) was that the unid stn jammed WDOG off & came on w/Python & Nixon skits. The SSB stn that sed "Hello R." was seporate. I hrd him later, under KRUD's sig. If making SWLs mad was this guys purpose, he succeeded. I was FUMING. As for the "Hello R." dork, I'm surprised that anyone so mindless as to repeat the same 2 words during any stn pgm break for 3 hours can actually operate a xmtr. I wish FCC wud take it away & give him some Lincoln Logs to play with...

Sorry abt logs: to John Barnard & Steve Sachs. Both had logs that were slowed by USPS. Again, sorry. If I wait more than 4 ds for logs, the process gets slowed down & the news gets stale (counteracting PiPa's purpose).

Howdy! As you may notice from the change of appearance w/PiPa, we did move to WV. So, the New maildrop (replacing BF,PA) should be aanced over the air as:

PO: Box 628
Slanesville, WV 25444

I've heard that our rural route is 1 day faster, so PiPa people can send logs & other assorted things to:

Star Route 1
Box 117
Points, WV 25437

This issue's gonna be a real mess cuz I'm tring to get used to typing w/o a computer again and I barely have anyone's loggings. The faithful USPS is holding up thrair reputation by not forwarding ANY mail from BF,PA yet. Its still only 5 dyas since we moved, but I notified the PO's a few days before we moved. Oh well... PLEASE remember to send your logs next time AND to the new address. I'll try to get the mess cleared up and print the logs for both issues next time.

The deadline for #10 is 9/7...send logs out no later than 9/4

The new phone # for me/PiPa is (304) 496-8410. Unfortunately, they tellme that they're getting new switching equipment, so we have no service until 9/15. To top it all off, no TV stations are receiable here (w/o a booster), only 3 FM stns come in. In all, I'm getting DTs from information withdrawal. I cant even get any cheap hits off of the TV!

STN INFO: RAINBOW R. GERMANY is testing to NA on 9/9-10 from 2300-0600 UTC. He'll probably use 6314, but sed 7483 & 7490 cud be used as well. Send either \$1 US or 2 IRCs. If ya send a tape of the pgm & an extra \$, he'll send a studio copy. Power is only 35 w, but its worth a try. He plans to also test later this year.... Samurai R. may be on Labor Day; they're not sure. But then again, I guess alotta stns probably will....Rem, R.CHESAPEAKE BAY plans to be on 9/17 at 2200 UTC on 6815 kHz....Not sure whats happening w/VOSTENCH. A call from the op sez they ran into some social difficulties (not the FCC) that may force'm off the air. I think they're planning to return to the air in the next month or so anyway...R.USA is planning some tests on weekdays & wekkends on 7415 tween 1100-1200 UTC..Pgms are 15-45 min in length.

By the way, has anyone logged KNBS on 19 m? Just wondering...

Why am I BSing so much? Cuz I dont have many loggings and I found out that I can make 11 x 17 copies for the same price as 8 x 11. Since I have more room, I thot it might be nice to air some opinions in here or give profiles of some of the PiPa membership. Whaddya think? If you're interested in having something abt yourself printed in here, send some info like: Age, hobbies, job, address (if you like), why you like pirate DX, your favorite/least favorite stns, & why, pet peeves, receive you use, how long you've been DXing pirates, how many stns you've logged/QSLed, etc. You can add more info or skip some of these if ya want. I just thot this might be a nice addition (esp to those slim DX issues). So please send your bio in soon!

One question I'd like to stir up is that of jamming pirates. I (& many others've gotten really angry at these dopes. Are there any answers? I've even had it suggested that DXers DF jammers. But then what? DO we call the FCC? Do we threaten them? Calling the FCC might be the best bet, but what happens if they bust the stn being jammed instead? And what happens if 2 stns accidentally QRM each other? Cud be bad. I think the best bet may be to write a letter to the FCC a few days after the incident occurred, making sure who QRMed who. Then the stn would be tagged w/a black letter. I dont know, what are your views on the matter?

Deadline: Mail out all loggongs no later than 9/25 for PiPa #11

PiPa ph# is: (304)496-8410. They say we'll have service on 9/15, but if ya dont get me, they're probably still messed up.

At this time, Dave Valko is only reporter of Rainbow R. Germany (see logs) Amazing! I picked a lousy weknd to part from DXing! RRG's add is: Postbus 65027, NL-3002 DA Rotterdam, Holland. They plan to test later in the year, too. They REALLY want advice on the clarity of the following freqs: 6293, 6314, 6815, 7483, 7490 & 7591 So write to 'em if ya get a chance...seem really nice.

Here's a comment on pirate jamming from the world famous John T. Arthur: "I dont think complaints to the FCC will have any effect, and I wouldnt put any trust in someone who notified them for any reason. Dfing them would be rather difficult, since most of us use dipoles, so I dont think thats gonna work. One thing that might discourage them is not to mention 'em to PiPa, ACE, etc; mention the jamming only to the stn being jammed, but otherwise pretend it didnt happen. Why 'give the jerk any satisfaction by letting him know he was effective? And we shud keep a private blacklist of such a-holes ~~_____~~, maybe. Of course, whos ever gonna QSL "Hello R." anyhow? Beyond that, since the pirate is breaking FCC rules, whos gonna care that the jammer is doin the same thing?"

Thanx for the comment, JTA. I wish there was an easy way to solve the problem, but..

Stn Nx: Global BCing SVC is not registered w/HI add, dont send mail there..Midnite R. sez they will be on SW & using WV add soon. No other details..Samurai R. sed had lotsa tech probs & couldnt make Labor Day bdcsts..R.USA sed they tested a few times on 41 m @ 1100 UTC. Since 7415 has RTTY, check 7395, 7430, 7460, 7490 & any other open freqs..KNBS has been doin some recording: Christmas & anti-apartheid pgms so far. Look for more soon..WXXR also plans to be on soon w/punk & industrial mx... Still no word on KRUD or their QSL situation..VoMonotony shud also be on in the next few weeks w/7..RFM has got the mod probs cleared up & now has a niceQSL. Gd work, H.V.!

Drop nx: IMPORTANT!: JTA now has an Eastern box to supplement the 1 in Hilo, HI. The add is: PO Box 452, Wellsville, NY 14895. The Hilo box may eventually be replaced by it. So, if a stn gives Hilo add, youll save abt 2 months by sending it to: Ninsted (and they go to the same place anyway).

Incompetence dept: Just called phone Co. & they sed I wasnt sched for service till 9/29. A quick check showed they completely botched my order (wrong add, etc) & we coulda been hooked up 3 weeks ago after all. (the last operator lied). Sheesh!

Lotsa Euro NX! TESTS!! Rainbow R. Germany sed t...v'll test on 12/23 at 2300 UTC on 6240 or 7483 kHz. I dunno when s/o...ime'll be, but prob after 0700...On 12/24 0400-0600 FRS Holland will test tween 7300-7450 khz w/150w. At same time, Vo/Netherlands will be on either 7490 or 15043 w/300w and R.East Coast Holland will be tween 7400-7420 w/200w. Freqs on these Dutch stns arent set. I'd check 19, 41 & 43 m for these & poss others testing.

Huge WMR sked: 12/24, 25 & 26 + 1/1...0200-1030 13630, 1030-1400 13625 or 13720; 1 100w & 1 20w tx on 48m 0200-1400 6240, 6295, 6312 or 6317. 15015, 15043, 15065, 15640 or 15680 not sure abt times. Also, maybe on 21810 around 1300 UTC. YOW!

Keep checking 'round these freqs & times. Even if one station cant make its sked, someone else could pop-up there (from US or Europe) to catch their audience. Also, some of these stns could test txs at weird times & be audible ('specially on high freqs).

Jack Russel of WMR also has info on the R.Stella bdcsts. The stn & WLR (Woodstock/Lynda R.) run several txs (225w, 200w & 20w), but the big thing is that altho these stns are "Scottish", the txs are actually in Ireland. So, if ya log this on 6318, it's actually Eire.

Stn mx: Rep.R.W. plans to return by Spring '90. NY add...Reports to WRNR've been coming back to many. I know of no other add...CSIC should be on the air in the near future w/DJs Rambo & Mata Hari. Will use WV add...There is NO add for VoAbnormal contrary to some reports...the W5YI report notes that WJPL (91.9 FM) was busted by the FCC in Brooklyn I dont really think this is a sign of an FCC crackdown; usually at least a few FMers get busted every year...R.Mexico shud hopefully be on soon & using WV add...VoR.F.Indiana is using WV add & sez that QSLs shud be out in the near future. Rite now, he's flooded w/reports!

DVS now has a bumper-strip maker & will make custom 1- & 2-line stickers for interested stns. Cost is \$2 each or \$1.50 each for 10 or more. Still have the button-maker also. DVS, POB 452, Wellsville, NY 14895

After talking to John Arthur on the phone a bit, we decided to make his get together the 2nd official PAPA get-together. The date is 5/28-7/4 (herein 'there') Location is Belfast, NY in W.N.Y. (Wow in real decadent tonite). It should be a nice drive for most anyone in Ontario, B.O.H. W.N.Y. & W.P.A. Should be a decent drive for other people too. I'll be there & of course John'll be there. John needs to know who's at least thinkin' abt comin, so be sure to call him at (716) 365-8870. NCC.

The Sept PiPa get-together that I had planned is still on, but its getting pushed back to Oct sometime cuz of the weird lottery system that PA state parks have for their cabins. Location'll be in Central PA & I shud have the info in late July or early Aug.

I've got a few interesting opinions from folks. First off, Steve Sachs: "It seems that so many so-called 'pirates' make 1 bcst, possibly as a joke and then get credit in PiPa, ACE, & even Zeller's Book. This, to me, cheapens the whole idea, when R.USA, R.Clandestine, SML, etc have been on for years--and put alot of thought & creativity into their pgms."

put alot of thought & creativity into them pgs.
I just stole that outta one a Steve's ltrs to me (Sorry Steve!). I thot he had a good point, so I printed it. If ya wanna do something in appreciation of str that make a commitment to bdcstng, send ltrs, money, tapes, whatever. I wrote R.Clandestine a few ltrs last year & thanked'em for the good pgmng & I must've had my name mentioned on 20 bdcsts. They seemed to really appreciate it.

Dline for #28: send logs out no later than 5/29.

1st off, I gotta really apologize for not putting the dline in the last issue. I know we're missing logs from a few folks who rather bleed out their finger-nails than miss logging pirates. But--I think it'd be better to get this PiPa out on time than wait for the logs. Again, sorry, but at least the issue's pretty good anyway.

Stm nr: WKZR's decide to lie a bit low lately, so don't expect alot...R.Sarba-REZ'll go thru a radical format change--not sure what to?? Hebbe c&w mxy n... new 1 w/PA add is Texaco 3, their 3 is a 4-yr old girl! I guess if, on never mind... I got a 3000 Hz w/interference & I didn't even tell my mother... RFM shud have another pgm out sometime; its air date keeps getting pushed back... Haven't hrd from too many others lately...

Got pm comments de a few: 1st from Jeff Foster: "I agree w/Steve's comments on pirate xmissions for the sake of recognition in AOL,Popcorn or PiPa. I such occasion was the 4/1 xmission of WJAR where all he did was key the mic for 5 min trying to think of something to say. I guess its up to DXers logs as to what's going to be a pirate or not. If it's logged, then I guess it's a pirate! As for me, I'm gonna start omitting stns like WGBB, WJPA & others that lack the usual f.r. pgming"

From Perry Provance: "w/pirates, you'll always have 1-time only stns, but give'em a gd full yr before ya put'em in this category. Some stns are dormant for long periods of time between broadcasts. Look at w/olpeitric Catfish, R.Angeline Potomac, R.Janyade, ever w/Purple Pumpkin! It's free r., so be prepared to open for anything! Altho Vot & the Earth Day lady are far from any personal that, they do stimulate thinking. That's better than being overjoyed w/complacent rock & IDs, which doesn't stimulate braincells or adrenalin."

Thnx for both comments! Rem that QSO-only stns are technically bootleggers and not pirates; ya don't hafta log 'em. Then again, ya don't hafta log anything! Perry: the question was 1-time vs regular stns; some regulars are interesting & creative (ie KHBS & some others). Still, it is true that some stns are dormant for ever. I guess it's good not to jump to many conclusions!

Of course, George Zeller made his annual appearance on the Joel Rose show on WERE (legal) in Cleveland to tkt abt pirates. George sez it went well & he had segments of Vol & R.Cland & WERE must amnt + some callers. Grr!

ere's a comment de Nick Grace abt pirate QSOs: "Why is there such a ruckus? Cuz n out-of-bander doesnt air mx, he's called a 'bootlegger.' He isnt bdcsting in the eyes of the FCC, so he isnt a pirate. This is so ridiculous! He is elitising his hobby, excluding some from others. 'R.Politizania's just a boot,' is lowering his status. A pirate is a bootlegger anyway! I dont hear anyone calling the Crooked an a booter! Sure he tlks, but he doesnt air mx. Therefore, he isnt bdcsting!"

ctually, I disagree w/tis'un. If all a pirate is is an illegal stn, then all the emmers on 80m are pirates, most CBers are, all clandestines are, etc. Pirates are hobby broadcasters. Ya dont hafta play mx to bdcst; the pgmng just hasta be made for the general public. I think the classifications are important in order to report & study the phenomena; its also important so the scene as a whole can focus its attention & priorities, etc. Pirate pgmng's greatly improved over the past 5 yrs, e in part to the scene. I dont think that a pirate getting into the illegal CB scene will get any real insights or pgmng help, cuz that's not their focus. I cud be on & on, but there's not enuf space. Any one else?? By the way, if the "boot" fits, wear it! (My thot for the day).

ome excitin Eurotests! WFR(London) on 6/24 & 7/1 from 0000-0700 in 15730. Add is PO Box 5, Hunstanton, Norfolk, PE36 5AU, UK...the other is R.Confusi here's no dates for this, they just say they hope to be on Sats or Suns 'round 400 on 15725 or 15730 for abt an hour. Their add is: 32 Victoria Rd, Salisbury, Wiltshire, SP1 3NG, UK. Gd luck! I'll be checking "hi-19" some now!

ere's something interesting from George Zeller. He's been hearing an EG 5D stnaily round 2200 UTC on 5046/6840. Sigs are S8/59+10 respectively. Considering that this is 3 hrs before sunset & the stn is the only one audible on 60m, he thinks the stn isnt too far away from him. He wants all of us to check round for it & either end the logs to him or to me to forward to him. 5046 was peaking the meter here the other day, just as 60m was starting to open.

Here're a few more commts, 1st Phil Burbules: On those Vx Mailboxes, I think it'd become expensive. The stn'd hafta pay postage on all QSLs (if they sent any out) + the Mailbox fees. For me, I'd rather write a ltr to take the time to tell'em what I thot abt their pgm in detail & anything else that crosses my mind w/o holding up the line." Yup, I'm sure there're lotsa opinions on this...AY

& 1 de Paul Routenburg: "If ya cant do something original & reasonably creative w/some technical competence, then dont bother. I enjoy listening to a well-produced & creative pgm, but relaying some FM stn that sounds like hundsda others seems like a waste of time. When (if ever) Im in the mood to listen to fm r., I'll listen to a local. At least it's in stereo. Next, some goof'll be relaying Larry King or Tlknr is there anything else on AM radio?)" Actually, over 1/2 of the stns here cover the Balt Orioles. I agree, but at least pgmng has gotten alot better!! Oh, by the way, Paul sent this in just after hearing the WFCB relay stn abt 1 mo ago...AY

That's abt all I've got fer now...Oy yeah, I missed a coupla logs this time from people & Im really sorry abt that. But it'll help if ya can only write (or type) on 1 side of the paper, then I can cut the logs apart & sort'em. If ya dont mind, if I miss 1 or 2 or yer logs every now'n then, ya can keep doin' it on both sides. Then I can stop apologizing. Look out for the 6/30 wknd & 7/4! Sure to be hot!
